VALUROLL™
Simplicity in design.

55 & 77 SEMI AUTOMATIC ROLLER GARAGE DOORS

WHAT'S IN YOUR DOOR?

Valuroll roller garage doors offer the perfect combination of functionality, simplicity and reliability.

Every door is made to order, allowing you to customise the design to suit your garage.

CURTAIN

A double-skinned 77mm or 55mm aluminium profile incorporates a foam core for effective heat and sound insulation.

Whilst the Valuroll 77 offers exceptional strength, the space saving design of the 55 variant benefits from being able to roll into a box as small as 205mm.

BOTTOM SLAT & SEAL

The bottom slat is made from tough extruded aluminium. It incorporates a flexible rubber seal to help minimise water and debris ingress.

GUIDE CHANNELS

High strength extruded aluminium guide channels maintain door security. Built-in brushes minimise noise, assist in smooth operation and reduce draughts.

FULL BOX

Every door incorporates a full box housing for a neat appearance. It also helps to protect the barrel and curtain from dirt and debris.

CUSTOMISATION

Both the 77 and 55 garage doors, box and guide channels are available in a wide choice of colours - see overleaf to explore the range. Our painted wood grain doors come with white or brown box and guide channels as standard.

INSIDE YOU'LL FIND....

BARREL & AUTO LOCKS

A strong steel barrel supports the door structure. The curtain is connected to the barrel via T-springs, which come as standard. Selve locks can be fitted as an optional upgrade. Please ask for details.

Standard locks

Upgraded Selve locks

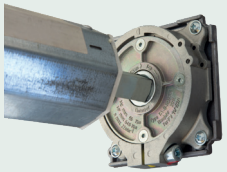
OPERATING YOUR DOOR

MOTOR, SWITCH & MANUAL OVERRIDE

A powerful tubular motor drives your door safely and reliably. The door is conveniently operated via a semi-automatic control panel, which comes with 1 remote handset and a simple push-button rocker switch. An internal high level manual override allows you to use a winding handle to operate your door and maintain access to your garage in the event of a power cut. Other control options and additional handsets may be available on request.

SAFETY BRAKE

Valuroll doors come with a safety brake where appropriate and in line with legislation. This stops the door from dropping in the rare event of motor failure.



STANDARD COLOURS

Available with or without matching box and guides. Painted wood effect doors supplied with brown box and guides as standard.

Not available for 55 doors

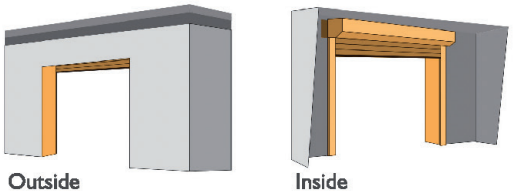
Longer lead time may apply for 55 doors

INSTALLATION

Valuroll doors can be installed in different ways. Factors like your opening size, the wall construction and how much overhead space you have will affect which option is most suitable.

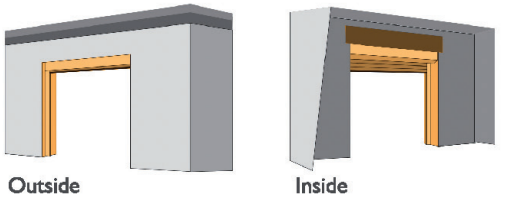
INTERNAL FACE FIX

The door is fitted to the inside face of the garage opening. This is the most common location and allows the maximum clear drive-through width and the best security.



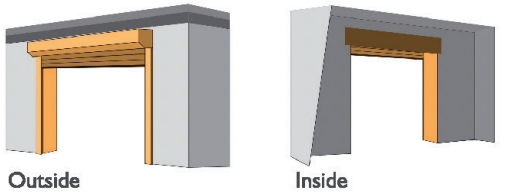
REVEAL FIX

The door is fitted within the garage opening, underneath the lintel. A reveal fix is most commonly used when face fixing is not possible. It requires good headroom within the opening, but no space above it. The Valuroll 55 is ideal for this type of installation due to its minimal box height.



EXTERNAL FACE FIX

Where headroom does not permit internal installation, doors can be fitted to the external face. This means the box is visible outside the garage and the concave face of the door curtain slats face outwards.



CARE & MAINTENANCE

You will receive a copy of the operating and maintenance instructions with your door. It is important that you keep this document as it contains details about your warranty, commissioning certificates and a service history form. We recommend that Valuroll doors are cleaned and serviced every 6-12 months by your installer. Please note due to the rolling action of the door, surface marks may be caused by security locks, dust and debris. This does not constitute a product fault and performance is not affected in any way.

GUARANTEE

Valuroll garage doors are guaranteed for a period of 1 year subject to correct installation. operation and maintenance. Contact your Valuroll installer to request a copy of the full terms and conditions.
